

CENTER  
HOLE TO  
FIT  
DOWEL SIZE

END

Use good quality 1/4" plywood  
Bottom is 5 x 10 inches  
Sides are 4 3/4 x 10 inches  
Ends- use pattern  
1 dowel 10 1/2 inches- 1/2 is good, or whatever,  
just drill the hole to match.

Sand lightly  
Glue and nail joints  
Caulk inside seams

This end should be 5.5 inches wide and 10  
inches high. If this image does not print at that  
size, please alter the pattern or the sides won't  
fit!

enlarge or shrink this drawing to  
make this width equal to 5.5 inches
